A LOVELY COOLING DOWN.

IT BEGAN AT NOON, AS PROPHESIED BY THE WEATHER CLERK.

There Was Only Too Great an Anxiety This Morning on Top of the Equitable to Pacify Perspiring New York-But This Cooling Wave Is No Rampant Thing Straight from the Northwest.

The weather clerk was smiling gently to himself this morning as he sat in his cool and airy retreat in the top of the Equitable Building and read what the morning papers had to say about him, and most of all the poetry which was written in his honor seemed to please him.

He cuts out all the newspaper slips and pastes them in a big scrap-book, and when it is full he files it away with a lot of others which he has filled during his life in Gotham. " Some of you people who are not satisfied

with the way we run the weather up here ought to try it themselves for a while," he said to THE EVENING WORLD reporter this morning. "They'd soon find out how hard it is to please. Now, what if it was a little warm yesterday? We're going to treat you better to-day, and a great deal better to-morrow. In other words, you can tell the public to prepare themselves for a comfortable Sunday, if they are going to stay in to-

if they are going to stay in town.

o, there isn't any cold wave from the No, there isn't any cold wave from the indefinite Northwest ready to rush in upon us. Most people seem to think that is the only way a change in the weather can be brought about, but it is a great mistake. We are simply going to have a gradual cooling down that will make things just lovely all around."

The weather clerk explained that the in-

air close and oppressive.

Last night the wind shifted around to the northwest, and is now gently blowing the humidity out to sea again. It was a very gent e bre ze, however, and

had no accomplished much at 8 o'clock this morning, when the temperature registered 74 degrees, a slight improvement on yesterday, and the humidity was 72.

It will blew harder later in the day and there may be some rain, but at the finish old Humidity will be knocked out completely. The temperature all over the West and Lake region reli about 10 degrees last night, and at Chicago it was 62 at 8 o'clock. At Winnipeg is was 46 degrees and 48 at St. Vincent, These were the coolest places reported this morning. morning.
Downtown, during the early forenoon, the

sun seemed to pour down its s orching rays
with more fierceness even than yesterday,
and pedest ians were evidently all prepared
for hotter weather.

There were more fiencel shirts and neglige

There were more names smirts and neglige costumes than were ever seen before, and those who stopped in front of the big thermometer at Hudnut's turned away with a despairing look to swab their perspiring faces, as they saw the red crawling rapidly up to the eighties.

At noon it was cooler, and the predictions began to be verified.

KELNAN WANTS TEEMER WATCHED.

Wallace Ross for Trainer or There Will Be No Race with Wm. O'Connor.

At present the race which every one thought had satisfactorily arranged between John T the champion oarsman of America, and Wm. O'Connor, the Canadian whom Ned Hanlan has rather taken under his wing, is in the condition best described by the word "hanging." It seems test described by the word "hanging." It seems that sometime after O'Connor had made his deposit to row Teemer, telatter wire this accert Jim Keenan, of Bot n, is in it in to cover the take. This keenan d but ne unsatisfac ory outcome of the recent douot-scull race, at Saratogs, in which Hamm and Teemer rowed toge her, is it which Hamm and Teemer rowed toge her, is it keenan to think that a trainer different from Hamm for the arrange drace would prove a beneficial change. So last wednesd-y night Mr. Keenan took a train from Boston for this city, where he expected to find Teemer, who had then been here for several days and talk the matter over with him.

Mr. Keenan's son Jack, accompanied by Wallace Ross, came on to New York the next day. Ross is the man whom Keedan wants as trainer. As soon as the party had reached town they proceeded to

as the party had reached town they proceeded to low up Teemer, but, much to their surpuse, found that he had departed with Trainer Hamm for Lake Caantauqua, where it is supposed he was to prepare for the coming race. This was someth g which Keenan hadn't barcanned for, and it didn't please him a little bit.

So it came about that Teemer received a telegram sing that unless he immediately betook himself and boat to worcester, Mass. and there train for the race under the eye of Mr. Wellice Hoss he need expect no backing from Mr. James Reenan. And there's where the matter resis. Teemer has not been heard from and no one can predict his answer.

Burglars Worked While the Dogs Slept.

SEPECIAL TO THE EVENING WORLD, I SOUTH LANCASTER, Mass., Aug. 18. -The store and house of H. F. Hosmer was entered by burglars last night, who blew open the safe but found nothing. The nocturnal callers then ransacked the house, which adjoins the store, and from Mr. Hosmir's clothing and deak pillered \$500 in bills and silver, besides \$15 worth of postage stamps.

As safeguards against burglars and thieres Mr. Mother had a dog in the store and one in the bouse, but so cautiously not the surglars work that neither dog was aware of their presence.

La Blanche and Varley were escorted by two stalwat "coppers," and were the first to reach the court. They were straightway marched into the "bull pen."

Varley plainly showed the severe punishment he lad received from the Marine, his face having the appearance of one who had been pounded with a sand-bag. His eyes, nose and forchold were swellen and blackened, and he presented a most weekegone spectacle.

The Marine did not bear a scratch on his tong physicgnomy, and looked as if he were fit to fight his old rival, Jack Dempsey, the Nomparel, who came into Court on the heels of the brincipals, along with Con McAuliffe, another "good "m."

Jack Fallon, Brooklyn's "Strong Boy," a second of the Marine, walked in with Jack Hopper, the clever light-weight, who has fought a score of battles with varying success. They took seats on the wooden benches within the inclosure allotted to prisoners, and were soon joined by the balance of the 10s men, who were taken off the tug Mever.

Among the "notables" who sad down and awaited the pleasure of Judge Power were Snapper Garrison, the jockey: Judge Newton, of Gravesend; George W. Wood, the minstrel: Tom Keenan, John L. Sullivan's old backer: Gabe Caldwell, the Brighton Heach starter: Frank Sievenson, the well-known referce at prize-fights: Warren Lewis, one of the Marine's backers; Billy Madden, the handsomest man of all the puglistic fraternity and the old-time trainer and manager of the "Rie Ed. of all the puglistic fraternity and the old-time trainer and manager of the "Big Fel-low," and Denny Costigan, who tried to act as proxy for Jack Demp-ey while the latter acted as engineer's assistant.

The Marine came to Boston, and on Dec. II, 1883, he joined the revenue marine service at Charlestown. After being in the service a number of months his discharge was obtained through the assistance of John Boyle O'Reilly and other prominent sporting men or Briston. His first battle in Baston was at the old Cristo Ciul, Jan. 28, 1884. He fought George Smith, a heavy-weight, six rounds, when he referre declared the first a draw. Ton Bates, of England, was the next pugnist that faced La Hishone. They fought Marca 21, 1884, for a lour-numred-dollar purse. Rates was knocked out in the fifth round. Deany Kelleber, the well-known middle-weight, of Quinov, Mass., was then matched to fight the Marine six rounds for a one-hundred-dollar purse. They met at the Cristo Ciub, Oct. 3, 1884, and Kelleber was knocked sense ess in the fourth round.

Pete McCoy, then champion middle-weight, was induced to met him in April, 1885, at the Boston Boxing Chab in an elutit-inning fight for \$500. Mecory was terrily non-shed and knocked out in the first and second rounds, but the referree declared the fight a draw. The admirers of the Marine were selated over his work that they made propositions to Jack Dempsy, the 'Nonbarell.'

After much contraversy they were matched to fight for \$2,000 and a five-hundred-dollar purse. The mill was fought Sundsy, March 14, 1884, at Larchmont, N. Y. The Marine was defeated in Intricen rounds lasting \$9m. and 3s. He defeated Mike Gillespie in four rounds at the Hoboken Cusino, Oct. 24, 1887. Two days later and at the same place he whipped Harry Langdon in three rounds. At the same place Oct. 28, the bested Bill Dune, of Phi adelphia, is three rounds. The City of New York is a racer's build, long, narrow and her lines very sloving. She looks as if she would cleave the water like an arrow. Looking at her from the front one feets that she is a narrow-chested thing, but that her lungs are all right. In fact, except for the sleuder build of the boal and the exquisite nearn so of everything about her, the vannted Inman liner is not such a thing of beauty. A railing along het saide gives her too much the appearance of the cheap barges which dri t down the bay like floating tenement-houses.

When The Evering World man boarded the Umbrin its stout sides were glistening in the morning sun like a newly polished boot. Capi. AlcMingins was paring the deck. The doughty commander of the marine courser is a shor. Scotchnan with bushy eyebrows, pale blue eyes and sandy side whiskers. He carried an unbrella with much tenderness.

"Vell, captain, what time do you expect to get out of your boat on this trip?" asked the reporter, cheerity.

The Umbria has a passenger list of two hundred, a very light list hardly taking more than a quarter of her capacity.

La Bourrogne, as she lay at the pier of the Compagnia Generale Transatlantique this morning looked as trim and slick as a mare who had just been rubbed down and thoroughly polished off. Her wood-work and every appointment was neat as wax.

The courteous captain excused himself for this somewhat neglige style of dress and when asked if the boat would be put on her mettle and whether he would drive his spurs into the flanks of his Gallic courser on the way over, he deprecated such an unseemly thing as racing.

"Oh, no." he exclaimed. "She will make her usual trip. There will be no hurry. Itacing is not prudent."

The reporter recalled the breathless way in which La Bourgogne had chased her rival across, and concaded that the "defense defumer," which blocks off the smoker on the pier of the company, would not apply to the smokestacks of the dandy French boat on her way back

smokestacks of the dandy French box before way back.

The best time the Bourgogne has made is seven days ten hours, but she will probably make a gailant effort to lower this record on her coming trip to Havre, notwithstanding the captain's horror of the insecurity of an ocean steamer which races.

The Ems, over on the Jersey shore near the Hoboken Ferry, has something of the look of the Umbris—a strong beat, without any frills or nonsense, but meant for basiness. She has a reputation, too, as a marine highflyer, and the race between the four will be of great interest.

Half as hour later the stately Umbria, with a calm indifference to being thirty minutes behind her Gallic rival, got her fan into motion and churned a milky wake as she entered on the big race.

The long, slender City of New York, with her three biack smokestacks pouring out voluminous clouds, pulled out at 5 and began looking for the trail of the Umbria.

Then the cream-colored stacks of the Emsacross the way, belched forth eagerly, and the start of the big ocean race was complete.
